1. The first part of the report is a general description of the project and its objectives. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

2. The second part of the report is a detailed description of the methodology used in the study. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

3. The third part of the report is a detailed description of the results of the study. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

4. The fourth part of the report is a detailed description of the conclusions of the study. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

5. The fifth part of the report is a detailed description of the recommendations of the study. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

6. The sixth part of the report is a detailed description of the limitations of the study. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

7. The seventh part of the report is a detailed description of the future research. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

8. The eighth part of the report is a detailed description of the references. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

9. The ninth part of the report is a detailed description of the appendices. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

10. The tenth part of the report is a detailed description of the index. This section should be written in a clear and concise manner, using simple language that is easy to understand. It should also include a brief history of the project and a statement of the problem being addressed.

E V E R G R E E N G R A F T S

SPRING 1957 DELIVERY

WHY OUR GRAFTS ARE AS GOOD AS CAN BE GROWN

They are made by expert labor only.

They are made on strong, thrifty JUNIPERUS understock with proper root growth, established in 2½ inch pots.

They are made with long, young scions.

They are made under proper heat and ventilation to insure proper callousing.

These are only a few of the reasons why Chandler's Grafts make such rapid growth when lined out in the field.

V A R I E T I E S

CHANDLER LANDSCAPE & FLORAL COMPANY

101 West 47th. Street

Kansas City 12, Missouri

EVERGREEN GRAPES

SPRING 1957 DELIVERY

WHY OUR GRAPES ARE AS GOOD AS ANY YOU CAN GET

They are made by expert labor only.
They are made on strong, healthy vines which
with proper root growth, are planted in
pots.
They are made with long, young vines.
They are made under proper heat and ventilation to insure
proper coloring.
There are only a few of the reasons why Chandler's Grapes
make such rapid growth when lined out in the
field.
